

SecurityMetrics PCI DSS Site Certification

Simplify PCI

You understand the costly consequences of a security breach. As a result, you recognize the need for your merchants to achieve PCI DSS compliance. However, you worry that the compliance process might frustrate your merchants.

You need a PCI partner that can make compliance as easy as possible for your merchants, while truly helping protect their customers' card data.

Experienced PCI Compliance Partner

PCI Site Certification services from SecurityMetrics simplify the PCI compliance and validation process for your merchants, while leveraging industry-leading technology to improve merchant security. As the most experienced PCI compliance partner for mass merchant programs, SecurityMetrics takes the time to help your merchants understand what PCI compliance is and why they need it. In a business-friendly manner, SecurityMetrics guides your merchants along the best and easiest path to compliance. By having your merchants take advantage of SecurityMetrics PCI Site Certification, you and your merchants can:

- **Reduce time, effort, and complexity of PCI compliance** by allowing SecurityMetrics to simplify and accelerate the PCI compliance process for you
- **Increase safe harbor** from fines and penalties that could result from compromises to your merchants' credit card data
- **Grow your revenue** by enabling merchants to promote their compliance status to their customers
- **Enjoy the peace of mind** that you're partnering with the world leader in PCI compliance

A Higher Standard of Service

Experienced human assistance and superior technology differentiates SecurityMetrics from other PCI compliance providers. Your merchants benefit from the following:

- A commitment to take adequate time to understand your merchants' operations and processes, enabling SecurityMetrics to accurately scope their business for certification
- Assurance that when you or your merchants have questions or support issues you can talk to a live qualified security professional, not an answering machine or e-mail queue
- An exceptional online solution designed specifically for non-technical audiences
- Industry-leading security scanning to maximize merchant security
- Trusted leadership and experience as a full service PCI compliance partner

Simplifying PCI Compliance

Before your merchants even commit to Site Certification, SecurityMetrics will spend time with them to help them understand the basics of PCI compliance and how it can help secure their business. SecurityMetrics will help them determine their specific compliance requirements, and work with them to achieve PCI compliance.

PCI Site Certification services from SecurityMetrics simplify the PCI compliance and validation process for your merchants, while leveraging industry-leading technology to improve merchant security.

To address the compliance needs of both ecommerce and non-ecommerce merchants, SecurityMetrics provides two different Site Certification offerings—Site Certification No-Internet and Site Certification with Quarterly Scanning. Both offerings provide the following:

- **Online merchant risk analysis** providing fast and easy risk profiling for your merchants
- **Advanced call center** able to service high call volumes and provide service level reporting
- **Online PCI SAQ and tutorial video** with instructions, helps and insights on answering the PCI Self-Assessment Questionnaire (SAQ)
- **Use of “SecurityMetrics Site Certified” logo** to promote merchant compliance status and increase merchant revenues
- **Reporting of SAQ results** to acquiring bank

Additionally, Site Certification No-Internet provides:

- **Unlimited telephone support** for 12-months on the SAQ or general questions
- **Business Security Policy template** to help meet security policy requirements

Also, Site Certification with Quarterly Scanning provides:

- **Automatic vulnerability scanning** on a quarterly basis
- **Unlimited rescanning** completely in the control of your merchant
- **Unlimited telephone support** for 12-months on the SAQ, scanning and general questions

Full Service PCI Compliance Partner

To simplify your PCI compliance efforts, when your merchants take advantage of SecurityMetrics Site Certification they'll benefit from the following:

- **Full-Service Vendor** – With expertise in PCI assessments, forensic incident response, vulnerability scanning, penetration testing,

security appliances, PTS, PA-DSS application security assessments, training, and consulting; SecurityMetrics is one of only a few companies that hold credentials for all aspects of PCI.

- **Expert Review and Advice on Vulnerabilities** – Leveraging its host of security professionals with expertise in every aspect of PCI and network security, SecurityMetrics provides expert review and advice on discovered vulnerabilities.
- **Fair, No-Surprise Pricing** – SecurityMetrics strives to offer simple and straightforward pricing with a single bid that won't change.
- **Superior Scanning Technology** – Leveraging thousands of vulnerability scripts that are continuously updated as they are released, SecurityMetrics scans for and reports on security holes that could enable backdoors, buffer overflows, denial of service, and other types of attacks. SecurityMetrics scans can even discover SQL injection issues that are specific to your merchant's own custom Web site programming.
- **Responsive Support** – SecurityMetrics experts support your merchants through the entire PCI compliance process from pre-engagement to site certification, scanning, reporting and all the way through to renewal.

As the most experienced PCI compliance partner for mass merchant programs, SecurityMetrics takes the time to help your merchants understand what PCI compliance is and why they need it.

Global Leader in PCI Compliance

As a global leader in PCI compliance, SecurityMetrics leverages its extensive experience and expertise to simplify PCI. Not only does SecurityMetrics help your merchants avoid the pitfalls that lead to compromised security, credit card fraud, regulatory fines, and loss of business, but SecurityMetrics does it in a fast and easy manner. SecurityMetrics works in your behalf to advise and help your merchants achieve PCI compliance, offering a price they can rely on, increasing revenue opportunities, facilitating PCI reporting efforts, and establishing a partnership that you can trust.
